

Get Reel on Climate Competition 2009

How to get started:

1. Download **Get Reel on Climate** Competition rules, entry forms, climate change resources and lesson plans at: <http://globalclassroom.unicef.ca/getreelonclimate>.
2. Use the lesson plans with your class or student group. Have fun creating your video/written entries! Ensure student teams of four submit them by **Thursday, October 8** at 4:00 p.m. EST.

Teach students with a passion for climate change?

Take them on an experience of a lifetime...

The world will watch as country leaders meet in Copenhagen, Denmark in December 2009. This UN Climate Change Conference will be a critical milestone in global efforts to address climate change.

Your students can influence the decisions our leaders make.

Enter your student team in the **Get Reel on Climate** Competition. The winning team of four youth, ages 14-17, will participate in the Children's Climate Forum in Copenhagen (CCFC 09), November 28th to December 4th. It could be your students working with youth from around the world to prepare a strategy to challenge country leaders to stop the clock on climate change!

Your students will have the chance to shape the planet for future generations.

Note: All travel and accommodation expenses are covered for the winning team of four students and one teacher.
